

ODU MEDI-SNAP®

DISPOSABLE SYSTEM SOLUTION

The new ODU MEDI-SNAP® Disposable System Solution is suitable for every application in the medical sector where a single-use connection is needed and high volumes are required. This product is compatible to all ODU MEDI-SNAP® receptacles and in-line receptacles also already installed in the field.

Possible applications for this solution are catheters, sensor cables or SpO2 adapter cables. The ODU MEDI-SNAP® Disposable System Solution is supplied fully assembled with the matching cable.
