

A PERFECT ALLIANCE.

# REACH-DECLARATION

According to the definition in Article (3) of the REACH-Regulation, ODU is a producer of articles and consequently a downstream user. Therefore we are not subject to the obligation to register chemicals.

As provided for by REACH, the substances that we use to manufacture our products are without exception those for which we have been provided with sufficient information in the form of safety data sheets.

ODU affirms that it follows REACH-Regulation updates and that it compares these updates with the substance information that we have on hand. The expansion of the candidate list and the inclusion of substances in REACH-Annex XIV receive special attention in this regard.

In general we can confirm that the products that ODU manufactures do not contain any candidate list or Annex XIV substances in a concentration exceeding the permitted limiting value of 0.1 % otherwise you will receive appropriate information.

The most recent candidate list and the updated list of substances in Annex XIV can be found on the ECHA webpage at the following links:

- Candidate list: <http://echa.europa.eu/de/candidate-list-table>
- Annex XIV: <http://echa.europa.eu/addressing-chemicals-of-concern/authorisation/recommendation-for-inclusion-in-the-authorisation-list/authorisation-list>

These statements are based on our current state of knowledge. We cannot issue a warranty or assume liability for factors that lie outside the state of our knowledge and control.
